

e-Viroguard

CONTACTLESS SANITIZER CUM FEVER MONITOR

The project is supported by National Innovation Foundation-India

BelBird Technologies brings a unique state of art IoT Viroguard to fight the deadly coronavirus by ensuring 100% compliance of visitor's hygiene through temperature and sanitization monitoring.

e-Viroguard

e-Viroguard performs all functions contactless measures such as monitoring fever and sanitization. Fever measurement has distance compensation feature unlike our competitors as they suffer from distance inaccuracies. Once the compliance is completed the message is displayed on e-Viroguard as well as on registered mobile sets. After compliance, the electronic door could open by host, or host can open the door ignoring warning signal. Even house owner could not open the door without completing compliance process.

FEATURES

- ◆ Made in India product
- ◆ Elegant Wall mount design
- ◆ 100% Touch-free
- ◆ No drip Technology
- ◆ Built with infrared smart sensor
- ◆ Storage Instruction: Dry place
- ◆ Usage: Automatic Spray Type
- ◆ Loading from the top
- ◆ Sleek and elegant design
- ◆ Twelve months warranty

TECHNICAL SPECIFICATIONS

- ◆ Material: Storage Container ABS
- ◆ Automatic Mist Mode
- ◆ Spark Free Brushless Motor
- ◆ Operations 230 VAC
- ◆ Electrical: Power: 12 V 1Amp
- ◆ Dispensing Volume: 2- 3ml
- ◆ Capacity - 2000 ml
- ◆ Dispensing Liquid: WHO Certified Liquid Sanitizers.
- ◆ Wall Mount

ADVANTAGES

- ◆ Prevents infection
- ◆ Fully automatic touch free operation
- ◆ Convenient compact desk top design for personal use
- ◆ Ideally suited for Offices, Hospitals & Malls
- ◆ Eliminates wastages because of accurate dispensation of the liquid
- ◆ Sensor Waterproof Ultrasonic non-contact.

ADDITIONAL ADVANTAGES

- ◆ Contactless doorbell
- ◆ Electronic lock is increasing the safety of home in addition to normal lock.
